

In the Claims:

No claims are cancelled, amended, or added. The entire set of pending claims is shown below.

1 1. (Original) A consumable order assistance system for
 2 + computer peripheral devices, comprising:
 3 a personal computer having a web browser and a messaging
 4 system;
 5 at least one computer peripheral device having a messaging
 6 system;
 7 a communication link signal coupling the personal computer with a
 8 seller of a consumable for the computer peripheral device via the web browser;
 9 and
 10 a consumable order assistance computer program provided on the
 11 personal computer and configured to receive a notification from the computer
 12 peripheral device via the messaging system of a need to order a consumable,
 13 alert a user of the personal computer of the notification, and provide an order
 14 location to the user for the consumable.

1 2. (Original) The system of claim 1 wherein the consumable
 2 order assistance computer program is further configured to collect a series of
 3 notifications and summarize the series of notifications for one or more computer
 4 peripheral devices.

1 3. (Original) The system of claim 1 wherein the consumable
 2 order assistance computer program consolidates a plurality of notifications from
 3 the at least one computer peripheral device.

1 4. (Original) The system of claim 1 wherein the consumable
 2 order assistance computer program is further configured to request identification
 3 from a user to verify authorization of the user to submit an order.

1 5. (Original) The system of claim 1 wherein the consumable
2 order assistance computer program is further configured to request at least one
3 level of authorization from a user before sending an order via the communication
4 link to a reseller of the consumable.

1 6. (Original) The system of claim 1 wherein the consumable
2 order assistance computer program is further configured to request at least one
3 level of authorization from a user before sending an order via the communication
4 link to a reseller of the consumable.

1 7. (Original) The system of claim 1 wherein the consumable
2 order assistance computer program is further configured to prompt a customer
3 user for authorization information.

1 8. (Original) The system of claim 1 wherein the
2 communication link comprises an electronic communication link that enables the
3 consumable order assistance computer program to submit an e-mail order.

1 9. (Original) The system of claim 1 wherein the
2 communication link comprises an electronic communication link that enables the
3 consumable order assistance computer program to submit a facsimile order.

1 10. (Previously amended) A computer-implemented system
2 which implements a program in which consumable components of computer
3 peripheral devices are replenished, the system comprising:
4 a notification system that alerts a user of a personal computer that
5 they need to order a consumable for a computer peripheral device associated
6 with the personal computer;
7 a facilitation system that provides a communication link with a
8 reseller of the consumable; and
9 at least one from a list of a consolidation system for consolidating
10 a plurality of orders, an authorization system for confirming that a user is

1 authorized to place an order for the consumable, and an order assistance system
2 that places an order for the consumable.

1 11. (Original) The system of claim 10 wherein the notification
2 system identifies for the user a part number for a consumable that needs to be
3 ordered for the computer peripheral device.

1 12. (Original) The system of claim 10 wherein the notification
2 system comprises a messaging system within an embedded web server of a
3 computer peripheral device and a messaging system within a personal computer.

1 13. (Original) The system of claim 12 wherein the personal
2 computer further comprises a browser, and the messaging system comprises an
3 e-mail application, wherein the computer peripheral device sends an e-mail
4 notification to the personal computer to alert a user to a need to order a
5 consumable.

1 14. (Original) The system of claim 13 wherein the e-mail
2 notification identifies the consumable by a part number.

1 15. (Original) The system of claim 10 wherein the system
2 comprises the consolidation system configured to aggregate a plurality of
3 notifications for one or more computer peripheral devices.

1 16. (Original) The system of claim 10 wherein the system
2 comprises the authorization system configured to request authorization from a
3 user prior to automatically submitting an order for the consumable to a reseller
4 of the consumable.

1 17. (Original) The system of claim 10 wherein the system
2 comprises the order assistance system configured to automatically submit an
3 order for the consumable in response to receiving a notification that a
4 consumable needs to be ordered.

1 18. (Original) A method of providing order assistance,
2 comprising:
3 providing a computer peripheral device, a personal computer having
4 a communication link with a reseller of a consumable, and a messaging system
5 extending between the computer peripheral device and the personal computer;
6 detecting a need to replenish a consumable at the computer
7 peripheral device;
8 notifying a user at the personal computer of the need to replenish
9 the consumable;
10 providing an order address location to a user for a reseller that sells
11 the consumable; and
12 placing an order for the consumable with the reseller using the
13 personal computer.

1 19. (Original) The method of claim 18 wherein placing the order
2 comprises automatically placing the order for the consumable in response to
3 notifying the user.

1 20. (Original) The method of claim 18 wherein, prior to placing
2 an order, querying a user to authorize placing the order with an identified
3 reseller.
